Continuation Sheet (PTO-303)

Continuation of 3. NOTE: The claims have been amended to introduce method steps performed at a user location. The additional method steps have not previously been searched or considered. Therefore, the amendments will not be entered because they would require further search and consideration. It is noted that Applicant points to pages 16-28 for support of the newly amended claims. However, the specification only has 21 pages. Therefore, Applicant's comments regarding support are in conflict with the specification. Applicant's comments regarding the prior art cited in the Final Office Action have been reviewed. However, the comments only address the claims as amended. Therefore the arguments are deemed moot with respect to the outstanding rejections. . .
